

## pickle Module

Function	Description
<code>pickle.dump(obj, file)</code>	Writes a pickled representation of obj to the open file object. (pickling)
<code>pickle.load(file) -&gt; object</code>	Reads and returns an object from the pickle data stored in a file. (unpickling)
<code>pickle.dumps(obj) -&gt; string</code>	Returns the pickled representation of the object as a bytes object. (pickling)
<code>pickle.loads(data) -&gt; object</code>	Reads and returns an object from the given pickle data. (unpickling)
