Comments in Python Challenges

#	Question
1.	Write a Python program to define and print the following variables. Also, write the following comment as a single line comment: **These variables refer to the course name & level** course = ' Python ', level = ' Beginner ' **Expected output:** course = Python level = Beginner
2.	Repeat the previous question but in this time write the provided comment as a multi-line comment. **Expected output:** course = Python level = Beginner
