Working with Modules and Packages in Python

How to Import a Module
import <module_name>
from <module_name> **import** <name(s)>
from <module_name> **import** *
import <module_name> **as** <alt_name>
from <module_name> **import** <name> **as** <alt_name>

How to Import from a Python Package
import <package_name> **.** <module_name>
import <package_name> **.** <module_name> **as** <alt_name>
from <package_name> **.** <module_name> **import** <names>
from <package_name> **.** <module_name> **import** <name> **as** <alt_name>
from <package_name> **import** <modules_name> [, <module_name> ...]
from <package_name> **import** <module_name> **as** <alt_name>
